7435 Oakland Mills Road
Columbia, MD 21046

Gentlemen:

Sensus Metering Systems Inc. respectfully requests confidentiality of certain materials provided with the submission of the BTXCVR under FCC ID: SDBBTXCVR in accordance with FCC Regulations 0.459. The confidentiality request applies to the following exhibits:

08-0041 – Schematics.pdf
08-0041 – System Block Diagram.pdf
08-0041 – Theory of Operation.pdf
08-0041 – Parts List.pdf
08-0041 – Internal Photos.pdf
08-0041 – Manual.pdf
08-0041 – Tune-up Procedure.pdf

Confidentiality of the Internal Photos is being requested because this is a non-consumer device which is not accessible by the general public and is only serviceable by the applicant or designated technicians. The manual is very technical and only provided to the utility industry and not the general public because the general public cannot service, install, or use the device. Therefore confidentiality of the Manual is also requested.

The BTXCVR has been developed at considerable effort and expense by Sensus Metering Systems Inc.. These items are considered as Trade Secrets and therefore public access to the proprietary material could possibly result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, stylized 'R' and a clear, legible name.

Sam Wismer
Vice President, Technology
Advanced Compliance Solutions, Inc.
