Re: FCC ID: SDBFLEXELS

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their models FLXA2D and FLXA2E for a Class II Permissive Change under FCC Part 24 Subpart D, Part 90 Subpart I and Part 101 Subpart C.

The purpose of the Class II permissive change is to correct the emission designators listed in the original filing and to include additional emission designators.

The original test report has been revised to list the proper emission designators. An supplemental test report is submitted to address the additional modulation formats.

The FCC ID: SDBFLEXELS was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
