Re: FCC ID: SDBFLEXGE100

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model 570x for a Class II Permissive Change under FCC Part 24 Subpart D, Part 90 Subpart I and Part 101 Subpart C.

The purpose of the Class II Permissive Change is to correct the emission designators listed during the original filing as well as to include additional emission designators. There are no hardware or output power changes on the product.

The FCC ID: SDBFLEXGE100 was tested to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.

Sam Wismer
