

## Sensus Non-Disclosure Memorandum

July 23, 2012

### Sensus OEMs:

This memorandum serves as an additional agreement between Sensus and its OEMs stating that the OEMs will use the Sensus FMT450 (See Appendix 1) in accordance with the FCC rules for approved devices. The Sensus FMT450 Transceiver is for professional use only. The compliance label will be located in a visible area on the transceiver rear cover and will display all necessary and pertinent information about the product. Confidentiality of the internal photos and the technical manual is being requested because this is a non-consumer device which is not accessible by the general public, professionally installed, and is only serviceable by Sensus, or designated technicians.

Please feel free to contact me directly should there be any questions regarding this matter.

Respectfully,

**Al Servais** | Reliability and Compliance Program Manager
