Re: FCC ID: SDBGFL2RM

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model GFL2RM for certification under FCC Part 24 Subpart D and Part 101 Subpart C.

The purpose of this application is to modular approve the GFL2RM transceiver. The GFL2RM is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices.

The FCC ID: SDBGFL2RM was tested standalone and the radiated measurements were performed in the orientation of typical installation. The GFL2RM was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
