Re: FCC ID: SDBGFL3

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model GFL3 for certification under FCC Part 24 Subpart D and Part 101 Subpart C.

The purpose of this application is to modular approve the GFL3 transceiver. The GFL3 is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices.

The FCC ID: SDBGFL3 was tested for two different TCXO models (TEW and KDS) and the data for the variant leading to the highest emissions is reported in the certification report. For the radiated emissions evaluation, the GFL3 was tested in the orientation of typical installation.

The GFL3 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
