Re: FCC ID: SDBIDTB001

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model IDTB001 for certification under FCC Part CFR 47 Part 24 Subpart D, Part 90 Subpart I, Part 101 Subpart C.

Modifications to the IDTB001 from the originally approved device include an additional modulation format/mode. No hardware changes were made from the original certified device. A detailed description of the additional modulation forma/mode is included in the Theory of Operations document provided in this application.

The characteristics affected by the additional modulation format/mode were tested and provided in this application.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large 'R' and a distinct 'W'.

Sam Wismer
