Re: FCC ID: SDBIDTB004

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model IDTB004 for class II permissive change under FCC Part CFR 47 Part 24 Subpart D, Part 101, Subpart C.

The Sensus Integrated Display Transceiver Board, Model IDTB004, is a wireless module with meter display circuitry. The device mounts into the Sensus iCon and Stratus electric meters. The device acts as the "Integrated Communications Device" and provides the RF functionality for the meter.

The purpose of this class II permissive change is to add eight new modulations types to the product. This was done with no electronic circuit changes the product.

The IDTB004 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large initial 'R'.
