Re: FCC ID: SDBLGZ1000

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model 560 Xz for a Class II Permissive Change.

The purpose of the Class II Permissive change is to remove the FCC Part 90 frequency bands of operation and to reduce the frequency band of 959.85 - 959.95625 MHz to 959.85 - 959.94375 MHz. There are no power or hardware changes to the product.

The 560 Xz was tested to the requirements of the FCC 47 CFR 101 Subpart C for the newly defined 959.94375 MHz upper channel and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
