Re: FCC ID: SDBM400V00

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model M400XCVR-00 for certification under FCC Part 24 Subpart D and Part 101 Subpart C.

The FCC ID: SDBM400V00 is a base station transceiver operating in the 900 MHz Sensus Metering Systems licensed bands. The M400XCVR-00 was assessed while configured with the external PA. The evaluation was performed for low power and high power operation.

The test report includes data for frequency bands which are not listed within this submission. These additional frequency bands are excluded from the scope of this application.

The FCC ID: SDBM400V00 was tested in full and was found in compliance to the test requirements.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.

Sam Wismer
