Re: FCC ID: SDBM400V01

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model M400XCVR-01 for certification under FCC Part 24 Subpart D.

The FCC ID: SDBM400V01 is a base station transceiver operating in the 900 MHz Sensus Metering Systems licensed bands. The M400XCVR-01 was assessed while configured with the external PA and duplexer. The evaluation was performed for low power and high power operation.

The purpose of this application is to certify the specific model M400XCVR-01. Some of the supporting documents reference additional models which operate in frequency bands different from what is listed this filing. These additional models and frequency bands are excluded from the scope of this application.

The FCC ID: SDBM400V01 was tested in full and was found in compliance to the test requirements.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.

Sam Wismer
