

## Sensus Non-Disclosure Memorandum

July 25, 2012

Sensus OEMs:

This memorandum serves as an additional agreement between Sensus and its OEMs stating that the OEMs will use the Sensus S100QZ Transceiver (See Appendix 1) in accordance with the FCC rules on approved devices. The Sensus S100QZ Transceiver is professionally installed inside various Sensus cabinets (See Appendix 2). The label will be located on the rear of the device and will display the FCC ID of the S100QZ Transceiver. Confidentiality of the technical manual is being requested because this is a non-consumer device which is not accessible by the general public, professionally installed, and is only serviceable by Sensus, or designated technicians.

Please feel free to contact me directly should there be any questions regarding this matter.

Respectfully,

**Al Servais** | Reliability and Compliance Program Manager  
639 Davis Drive | Morrisville, NC 27560 USA
