Re: FCC ID: SDBSLC20

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model SLC20 for certification under FCC Part 24 Subpart D and Part 101 Subpart C.

The model SLC20, FCC ID: SDBSLC20, is a wireless transceiver module operating from 901MHz - 960 MHz. The model SLC20 is identical to the Sensus model SLC200 (FCC ID: SDBSLC200) from a hardware perspective except that the model SLC200 offers an integral PCB antenna while the model SLC20 has the PCB antenna section snapped off and provides an RF connector for external antennas. Since the SLC20 module is intended to be implemented into specific host devices, it was evaluated for radiated emissions in the orientation of typical installation.

The SLC20 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large initial 'R'.
