Re: FCC ID: SDBTGB20

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, for evaluation of their model TGB20 for a Class 2 Permissive Change under FCC Part 24 Subpart D and Part 101 Subpart C.

The purpose of the Class 2 Permissive Change is to include an additional emission designator corresponding to the mPass 10k mode of operation. There are no hardware or power changes to the equipment.

The FCC ID: SDBTGB20 was tested for occupied bandwidth using the mPass 10k mode of operation to the aforementioned test standards and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
