Re: FCC ID: SDBVGBM4601

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model M4601 for certification under FCC Part 101 Subpart C.

The Sensus FlexNet Vehicle Gateway Basestation (VGB) model M4601 is a portable radio-based device used for the acquisition of data from utility meters and other field-based diagnostic instruments. The VGB model M4601 provides the ability to read both Sensus RadioRead and FlexNet drive-by technologies thus allowing the utility to maintain and utilize their existing RadioRead technology and reading equipment as they transition to FlexNet.

The M4601 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
