Re: FCC ID: SDBWFL

To Whom It May Concern:

The following application is submitted on behalf of our client Sensus Metering Systems, Inc. for evaluation of their model WFL for Certification under CFR 47 Part 24 Subpart D, Part 90 Subpart I, and Part 101.

The WFL is a stand-alone module consisting of a single printed circuit board which is designed to be integrated into specific host devices. The WFL model applies to two PCB variants, at the modular level. Where the two boards differ is in the endpoint form factor and end use. This difference requires a unique shape of the PCB for the different endpoint form factors. Both PCB variants are electrically identical.

The WFL was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
