

Regulatory Compliance and Safety Information – 480i CT

FCC Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to the Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to collect the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For body worn operation, this phone has been tested and meets the FCC RF exposure guidelines when used with Aastra Telecom accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. The highest reported SAR values are as follows for this equipment: Head: 0.05 W/kg; Body: 0.33 W/kg.

The recommended safe minimum separation distance required between persons and the base transceiver antennas of this equipment is 20cm (~8inches). This equipment must not be co-located or operated in conjunction with any other antenna or transmitter to avoid possible interference.

Changes or modifications not expressly approved by Aastra Telecom Inc. could void the user's authority to operate the equipment.

NOTE: Privacy of comunications may not be ensured when using this phone.

Canada Class B Notice

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Equipment Installation

Warning Only trained and qualified personnel should be allowed to install, replace, or service this equipment. The equipment must be placed indoors and connected to indoor networks only.
