Telecommunication Certification Body UL International (UK) Ltd. Unit 1-3, Horizon Kingsland Business Park Wade Road Basingstoke Hampshire RG24 8AH United Kingdom

RE: Dimension4 UWB+BLE Tag (D4UWBBLE)

FCC ID SEAUWBBLE

To Whom It May Concern:

The attached application is for a transmitter that is both a 6 to 7 GHz wideband device (WBT) operating under Part 15.250 and a Part 15.247 (DTS) device operating in the region 2401 to 2481.75MHz. The device has only integral antennas.

Previously, similar devices from this applicant were certified as Part 15.250/15.249 composite devices (e.g. FCC ID: SEAMOD30), and we are again following the FCC's guidance relating to previous certifications, which directed us to submit test reports for both the wideband and conventional transmitters under a single FCC ID.

Should you have any questions or require any further information with regards to this, please feel free to contact me.

Yours faithfully,

Dr Andy Ward FREng

Chief Technology Officer
