527 Great Road
Littleton, MA

This letter is a request for a 'Class II Permissive Change' in the contents and inclusions for an existing FCC grant, FCC ID #:SEJ-EVIRNET-BS.

The change in content would be the addition of test results from the qualification tests conducted on the base station, with a Nearson SG101N-915 roof-mount antenna, with appropriate cabling and surge arrestor. There were no other changes to the base station device, circuitry, power settings, channel plan, or modes of operation.

Report number 304389 from L.S. Compliance, Incorporated covers the details of these recent tests with the Nearson .SG101N-915.

Regards,

Abtin Spantman
RF / EMC Engineer
