Overview

This application is for a Class 2 permissive change to previously approved FCC ID: SEJ-ZPASSV2. The ZpassV2 is a low power RFID reader approved to operate under FCC rule part 15.209. The modifications to the device consist of removal of a USB connector and supporting components, the removal of a microSD memory storage card and components and the addition of a Flash IC memory chip. PCB component layout has changed, but no changes have been made to the radio circuitry.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
