Gentlemen:

This letter and the accompanying documentation are provided in support for Original certification of Zonar Systems telematics control unit. This device is a heavy-vehicle mounted telematics device that gathers vehicle data (GPS location, vehicle diagnostic information, etc) and sends this data to the Zonar database servers via a 2G/3G/LTE cellular modem.

The device also includes a dual mode Bluetooth module supporting both BLE and classic Bluetooth connectivity.

Zonar Systems is seeking approval for the device as an Intentional Radiator as per FCC parts 15.247, 22H, and 24E with FCC ID SEJ-ZTCU4A.

Sincerely,

David Pascoe  
Design Engineer  
Zonar Systems Inc.
