

iSmartAlarm™

We, (iSmart Alarm, Inc), declare that the device (FCC ID: _SENISC5_/IC: _10970A-ISC5_) doesn't have ad Hoc Mode function on "non-US/Canada frequencies". In addition, the frequency and country selection feature are disabled by firmware and any future firmware upgrade on the for marketed to US/Canada. Therefore, the device can only use channel 1-11 on the WiFi function only.

Should you have any question or comments regarding this matter, please have my best attention.

Sincerely yours

By:
