*2 It is available before and in playing and during pause.

*3 The function of Delete One cannot work until the camera enters image edit mode.

Position Service Function

If your smart device supports GPS, APP can record GPS location on picture files. This function is non-available for video files.

Android system:

1. There will appear a prompt that ["PIXPRO Remote Viewer" Would Like to Use Your GPS services !!] in your first time of enabling APP. If GPS of your smart device is off, you may select enabling or disabling it according to the prompt on the screen.
2. If GPS is on in your second time of or later enabling APP, your device will directly enter the home page of APP; if GPS is off, you may select enabling or disabling it according to the prompt on the screen.

iOS system:

1. When the APP is enabled for the first time, if the position service is enabled, it will prompt whether to not [PIXPRO Remote Viewer wants to share your current location] ; if the position service is disabled, it will prompt [Turn on Location services to allow "PIXPRO Remote Viewer" to determine Your Location.] ; and if clicking [setting] , the smart device position service setting interface will appear.
2. When the APP is enabled for the second time or later, status of position service:

| Position service state selected at the first-time enabling of the APP | The second-time or later enabling of the APP | |
|---|---|--|
| | The position service is enabled | The position service is Off |
| Enable | Enable the position service | A prompting message [Turn on Location services to allow "PIXPRO Remote Viewer" to determine Your Location] will appear; and if clicking [setting] , the smart device position service setting interface will appear. |
| Off | A prompting message that [Location Service is disabled for "PIXPRO Remote Viewer" Please exit PIXPRO SP1, then go to 'Settings; General; Location Services' and enable the service for "PIXPRO Remote Viewer"] ; and if clicking [Confirm] , the APP home interface will appear. Besides, the position service will be automatically disabled. | |
