

## Declaration of Antenna Specifications.

### Equipment Applicability:

The TMA4A radar system is a dual Doppler golf radar that tracks everything the golf club does before, during, and after impact - from commonly known parameters like Club Path and Face Angle to Swing Direction and Spin Loft. The other radar system tracks the full golf ball flight - from launch to landing and everything in between; including Launch Angle, Spin Rate and curvature. The product is aimed for golf instruction, coaching, fitting, and entertainment.

Trackman hereby declares that the following equipment includes the below specified antennas.

### Equipment included in this declaration:

Model number: TMA4A

Part number: EU334002A

### Antenna Specifications:

Gain (dB)	Type	Model	Manufacturer	Comment
0	Chip Antenna	AH104N2450D1-T	Taiyo Yuden	2.4GHz antenna
0	Chip Antenna	AH104N2450D1-T	Taiyo Yuden	5GHz antenna
15	4x4 patch antenna array	Integrated on PC334002	Trackman	10GHz antenna
12	4x4 patch antenna array	Integrated on PC334002	Trackman	24GHz antenna

### Unit Manufacturer:
