RE: Haier Telecom

FCC ID: SG70408000P7

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Confidentiality has been requested for the internal photographs. Please justify this request or remove Internal Photographs from the Confidentiality Request letter.
- 2.) This device contains a USB port. Was this device tested as a computer peripheral? If so, then either the Declaration of Conformity or Certification route must be followed for this device. If Certification, then kindly upload the Part 15B filing. If instead the DoC route is followed, then the label must include the FCC logo, and a DoC statement should appear in the Manual.
- 3.) Please identify the gain of the antenna – it is unusual for me to see a product with a conducted power of +29dBm produce an EIRP under 300mW. Kindly review your measurement data.

William H. Graff  
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
