Important notes

Please follow the following rules before you use the phone. Otherwise, it may result in dangers or make you violate laws.

Follow traffic regulations

Do not use the mobile phone without hand-free settings while driving. Please stop your car before you want to use your phone.

Switch off your phone at filling stations

Do not use your phone at filling stations or the areas with inflammables and explosive products or chemicals.

Switch off your phone on the plane

Mobile phones will cause interference. Using mobile phones on the plane is both a danger and a violation of laws.

Switch off your phone in the hospital

Switch off your phone when you are close to medical equipments and follow all the existing provisions.

Special provisions

Follow the special rules of relative places. Please switch off your phone where the use of mobile phones is forbidden or may cause interference or dangers (for example, in the hospital).

Careful Use

Use your phone normally (near your ears). Do not touch the wire without reason after switching off your phone.

Emergency Calls

You can dial emergency calls anytime, even the PIN/PUK locked, no UIM card or the phone locked. Input local emergency number and press send key. The Emergency call number are 100/101/102.

SAR INFORMATION

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types D1200 (FCC ID: SG70512D1200) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 1.453 W/kg and when properly worn on the body is 0.254 W/kg. This device was tested for typical body-worn operations with the back of the handset kept 1.5cm from the body. To maintain compliance with FCC RF

exposure requirements, use accessories that maintain a 1.5cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
