In re: OQO, Inc.
Request for Short-Term Confidentiality

To Whom It May Concern:

In accordance with 0.457 and 0.459 of CFR 47, OQO requests short-term confidentiality for the internal photos and user's manual of the attached test report.

These documents contain detailed system and equipment descriptions and related information about the product, which OQO considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, OQO feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

OQO understands that regardless of any future requests, Short Term Confidentiality for the items mentioned in the short term confidentiality request for this FCC ID, once granted, will end no later than 180 days from the grant date.

Sincerely,

Hans Hartmann
Vice President of Engineering, OQO
