Dear Examiner,

This is to request a Class II permissive change for FCC ID: SHKASCEHB8. The changes between them as following:

Delete the NTC of the battery, add a new NTC in the product circuit (Negative Temperature Coefficient Resistance). MIC part TVS location changed. Details as below:

<p>Original version NTC at battery</p>	<p>Update version NTC at main PCBA</p> 
	<p>Add NTC</p> 
	<p>Update MIC part TVS location</p> 

RF output power and Radiated Spurious Emissions were re-tested based above.

Please feel free to contact me with any questions.

Sincerely

Name: Ru Jia *Ru Jia*
