Storage and Maintenance

- Store the headphones in cool and dry place. The working temperature should be 0~45°C(32~113°F). Working in a cold/hot environment or a highly humid area or an extremely low air pressure may reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Keep the charging port dry before connecting to charger will reduce the risk.
- The headphones are water resistant, but are NOT waterproof. Please DO NOT submerge the headphones in water.
- Clean the headphones with a soft dry cloth.
- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
- After storage for a long period, please charge the headphones before using again.

Note

Design and specification are subject to change without notice. For the most up-to-date product information, please visit www.shokz.com.

Manufacturer Declarations

Warranty

AfterShokz LLC gives a warranty of 24 months on this product. For the current warranty conditions, please visit our website at www.shokz.com or contact your Shokz partner. Before putting the product into operation, please observe the respective country specific regulations.

Hearing Loss

Listening with headphones at high volume may affect your hearing and the audio will be distorted.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).

Responsible party (contact for FCC matters only):

AfterShokz LLC.
