

- 1) Confidentiality has not been requested on any exhibits (i.e. block diagram/schematics) that most applications typically do ask for confidentiality on. Please confirm that confidentiality is not required for any exhibits or alternatively please provide a confidentiality letter to cover exhibits which may be deemed proprietary. Please let us know if you need further guidance on this issue.

[The applicant confirmed that confidentiality is not required for any exhibits.](#)

- 2) Please comment on the procedure used for the loop antenna. Loop antennas should be rotated about its vertical axis and also investigated in the Horizontal axis. Please comment. (ANSI C63.4 8.2.1)
- 3) Test report should document actual RBW/VBW settings used for various frequency ranges. Please correct.
