Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046, USA

Gentlemen:

Our network camera is setup and supports at 1~13 channels for Japan market. Because the viewer program will be optimized in accordance with the supply region and local protocols, so when placing to US market, the channels supported of our network camera will be disabled by software only operate at 1~11 channels, and we will supply the specified user manual for US users.

Sincerely,

*Toru Onishi*
