

FCC SDR Class III Permissive Change Declaration

Date: October 14, 2014

**Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046**

Attn: OET Dept.

Product/ Model Number: XI-AC1300 and XI-AC867

Regarding the requirements for class III permissive changes identified in the SDR application guide (KDB 442812 D01 SDR Apps Guide v01), the following information must be provided when performing a Class III permissive change.

- 1) Identify all versions of software that are approved in the original grant, and all other granted Class III permissive changes including the requested Class III change.

Host software versions: AOS v7.1

- 2) Confirm that there is no change to the Software, Distribution and Security Documentation. If it does then a Class III resubmission of SDS security documentation is also required. (Note: Any changes to the Software, Distribution and Security Documentation requires a PBA to be filed.)

We declare there have been no changes to the SDR security documentation. The safeguards in place in the original grant are still in place.

Name: Paul Zahra

Date: 10/13/14

Title: Principle Compliance Engineer

Signature of applicant

A handwritten signature in black ink, appearing to read "Paul Zahra", written over a light blue horizontal line.
