

Federal Communications Commission

FCC ID: SK6-XR2425H

To whom it may concern:

The enclosed documents constitute a formal submittal and application for Equipment Authorization for a 2x2 802.11a/b/g/n four radio access point pursuant to the following rules:

Subpart C of Part 15 of FCC Rules (CFR 47), Intentional Radiators
Subpart E of Part 15 of FCC Rules (CFR 47), UNII Devices

Compliance with power limits in the case where there are multiple radios operating in the same band is demonstrated through total power and EIRP calculations in the test report. The device controls the four individual radio modules to ensure no two modules operate on the same (or overlapping) channels. RF exposure concerns related to the four co-located radios are addressed in the MPE calculation.

National Technical Systems – Silicon Valley, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact National Technical Systems – Silicon Valley for assistance.

Sincerely,

David W. Bare
Chief Engineer
