

Xirrus, INC.
2101 Corporate Center Drive Thousand Oaks, California 91320

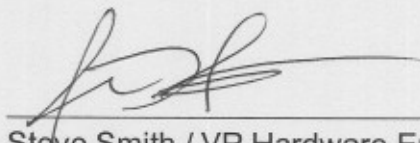

Declaration

To whom it may concern

FCC ID:SK6-XR520 contains one 2.4+5G combo WLAN module and one 5G only WLAN module. The internal firmware automatically selects different band for each radio, so that two radios would never transmit simultaneously on the same band. The firmware is protected by proprietary password and cannot be changed by the end-user or third party.

Should you have any questions, please have my best attention.

Sincerely your,

Steve Smith / VP Hardware Engineering
