Re: FCC ID: SK9AMI-5

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron, Inc., for evaluation of their model CVSO-B for certification under FCC rule part 15.247.

The CVSO-B is a composite device which contains (2) transceivers. These include (1) frequency hopping 900 MHz LAN radio and (1) 2.4 GHz Zigbee radio each of which was evaluated separately to the corresponding rules. These transceivers do not transmit simultaneously and therefore the device was not evaluated for radiated inter-modulation products.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kirby Munroe', is written over a thin horizontal line.
