Gentlemen:

Itrón

Itron Electricity Metering, Inc. respectfully requests confidentiality of certain materials provided with the submission of the Centron IDM high power under FCC ID: SK9C1A-3 in accordance with FCC Regulations 0.459. The confidentiality request applies to the parts lists, schematics, block diagrams, and theory of operations contained in exhibits in this filing. The C1A-3 has been developed at considerable effort and expense by Itron Electricity Metering, Inc. These items are considered as Trade Secrets and therefore public access to the proprietary material could possible result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Name: Lee Littlejohn

Title: Compliance Engineer
