Re: FCC ID: SK9C3A-2H

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Electricity Metering, Inc., for evaluation of their model C3A2H for single modular approval certification under FCC Part 15.247.

The C3A2H is an electricity metering module which includes a 909.6 MHz to 921.8 MHz transmitter. The module operates on AC as well as DC voltage which is supplies by a host device. The C3A2H is designed to be integrated into the Itron CENTRON electric utility meter forms.

The C3A2H was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
