Re: FCC ID: SK9ITR24

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Electricity Metering, Inc., for evaluation of their model ITR24 for certification under FCC Part 15.247.

The Itron ITR24 is an electricity metering module which includes the register and display features of the meter as well as a Zigbee transmitter that operates in the 2405 MHz to 2475 MHz band. The module operates on alternating current voltage which is supplied by a host device.

The ITR24 is designed to be integrated into a variety of electric meter form factors and utility hardware, including 1S, 2S, and 12S electric utility meter forms.

The ITR24 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
