Date: June 15, 2011

Gentlemen:

Itron, Inc. respectfully requests confidentiality of certain materials provided with the submission of the ITR24001 under FCC ID: SK9ITR24001 in accordance with 47 CFR 0.459. Pursuant to 47 CFR 0.457(d) of the FCC Rules, information that is considered trade secret and not routinely available to the public may also be withheld from public inspection if a request for non-disclosure is submitted pursuant to 47 CFR 0.459.

This confidentiality request applies to the schematics, block diagrams, theory of operation, and internal photos contained in the following exhibits:

11-0105 – Schematics.pdf
11-0105 – System Block Diagram.pdf
11-0105 – Theory of Operation.pdf
11-0105 – Internal Photos.pdf

The ITR24001 has been developed at considerable effort and expense by Itron, Inc. These items are considered as trade secrets and therefore public access to the proprietary material could possible result in duplication of equipment that could severely damage the company's business advantage.

Confidentiality of the Internal Photos is being requested because this is a non-consumer device which is not accessible by the general public and is only serviceable by the applicant or designated technicians.

I appreciate your assistance in this matter.

Sincerely,

Name: Lee Littlejohn Signature:
