Re: FCC ID: SK9ITR24001

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Electricity Metering, Inc., for evaluation of their model ITR24001 for single limited modular approval certification under FCC Part 15.247.

The ITR24001 is a stand-alone 802.11b/g/n module consisting of a single shielded enclosure which is designed to be integrated into specific host devices. The ITR24001 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

The ITR24001 can be collocated and transmit simultaneously with Itron Electricity Metering, Inc. FCC ID:SK9ITR9002 and either Sierra Wireless CDMA modem FCC ID: N7N-MC5728 or Sierra Wireless GSM / GPRS modem FCC ID: N7NMC8790 in the Itron Electricity Metering, Inc. Prism Cell Relay host device. Radiated inter-modulation testing was performed for all combinations of simultaneous transmission and found to be in compliance. MPE calculations showing compliance for all simultaneous transmit combinations is also provided.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive, flowing style.
