Re: FCC ID: SK9NIC

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Inc., for evaluation of their model NIC for a C2PC certification under FCC Part 15.247.

The C2PC is to add new modes to the DSS/DTS radios

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
