Re: FCC ID: SK9PMCR2

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron Electricity Metering, Inc., for evaluation of their model PMCR2 for certification under FCC Part 15.247 and 15.249.

The PMCR2 contains (3) transceivers which include (1) frequency hopping 900 MHz LAN radio and (2) 2.4 GHz Zigbee radios each of which was evaluated separately to the corresponding rules. Both the 900 MHz LAN and a high power 2.4GHz Zigbee radio were evaluated to Part 15.247 with a second lower power 2.4GHz Zigbee radio evaluated to Part 15.249.

The PMCR2 also contains a pre-approved cellular modem, FCC ID: N7NMC8790. All radios in the device can transmit simultaneously therefore the PMCR2 was evaluated for radiated inter-modulation products and found in compliance.

Sincerely,
