Dear Helen,

Please refer to below for our reply.

Best Regards,
Ting

Question #1: Bandedge test plots on the test report do not show either the correct readings or correct frequencies of the mark, the display lines are shown incorrectly. Please refer to the attached "TCB Question - Bandedge plots.pdf" for details. Please resubmit test plots with correct setting (max hold), correct mark, correct display line.

Ans #1: Please refer to attached revised test report. FYI: It's caused when converted the report from word file to pdf file.

Question #2: There are two systems under the filing with different digital design. It is usually critique with bandedge testing. The test report includes one set of bandedge measurement (on NVR-2028) which is marginal. Please provide bandedge measurement on IV-810VS as well.

Ans #2: The bandedge measurement on IV-810VS has been done and added in the test report. Please refer to it.

Question #3: Please check page 47 of the test report to verify if 4824MHz is a typo to list as the 2nd harmonic frequency for mid channel.

Ans #3: This is typo and page 55 of the test report was corrected. Please refer to the attached report.

Question #4: Please provide solder side photos of control panel of NVR-2028 and IV-810VS.

Ans #4: The internal photo has been added side photos of control panel of NVR-2028 and IV-810VS. Please refer to the attached.

Question #5: The setup photos show one more item on the turn table other than those listed on the report. Please refer to the attached "TCB Question - Test Setup.pdf" and explain what it is.

Ans #5: It's a load for supporting test and has been listed in the revised test report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
