USER GUIDE

Getting Started

The Bluvision DC BEEKs Badge Button User Guide covers the basics of the equipment setup and provisioning of equipment with Bluzone Cloud account and project. For a more in-depth explanation, see Bluvision Developer web site <https://bluvision.atlassian.net/wiki/spaces/PDP/pages/13041816/04.+How-to+Setup+BEEKs+Badge+Buttons>

Prerequisites

This equipment requires the steps below be followed prior to provisioning your BEEKs Badge Button device. These prerequisites are NOT covered within the installation guide below. Please complete the following steps prior to provisioning of your BEEKs Badge Button device.

- This equipment requires the user to have a registered Bluzone account at the website
 - <https://bluzone.io>
- Bluzone registration instructions are located at
 - <https://bluvision.atlassian.net/wiki/spaces/PDP/pages/6914122/Getting+Up+And+Running>
- This equipment also requires a user have a BEEKs Badge Button WiFi template setup and configured within Bluzone. Instructions for setting up a BEEKs Badge Button WiFi template are located at:
 - <https://bluvision.atlassian.net/wiki/spaces/PDP/pages/6914122/Getting+Up+And+Running#GettingUpAndRunning-ConfiguringBEEKs+Badge+ButtonWiFiprofiles>

Application/Service/Profile

- iBeacon support
- sBeacon support
- Eddystone support
- Fully open and easily configurable for 3rd party beacon protocol

How-to Provision BEEKs Badge Button

This will guide you through provisioning your BEEKs Badge Button of your Bluzone Account and assigned project,

Step-by-step provisioning guide

There are 3 steps to the provisioning process:

1. Download Bluzone Application from Apple App Store.
2. Physically provisioning BEEKs Badge Button using the Bluzone App. This requires BLE be enabled on device.

Provisioning Step 1: Download Bluzone Mobile Application

You can use the free Bluzone app with any compatible device, including:

Bluzone app (iOS) - iPhone, iPad and iPod touch running iOS 7.0 or later; certain features may require later versions. Touch the App Store button on your iPhone, iPod touch or iPad to download the free Bluzone app, or download the application from iTunes®. (If you download from iTunes, you will need to sync before you see the Bluzone logo display on your device.)

Provisioning Step 2 - Provisioning of a BEEKs Badge Button using Bluzone Mobile Application

Provisioning Steps

Step 1 - Launch the Bluzone app on your iOS device

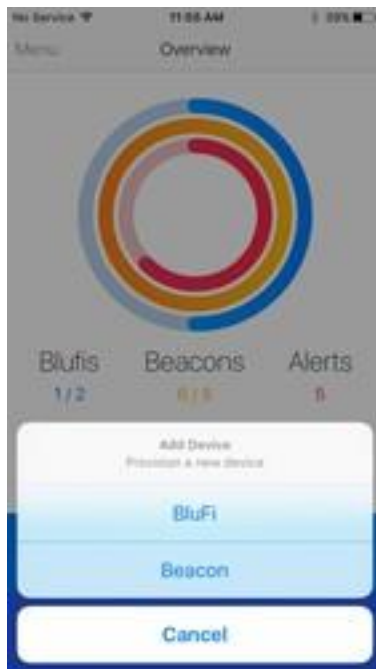

Step 1.1 Sign In - Sign in using your Bluzone account's registered username and password

Step 1.2 Select Provision Action – Click “Provision” located at bottom of screen

Step 1.3 Select BEEKs Badge Button Provisioning – Click / Select BEEKs Badge Button within option menu.

Step 1.4 Select Your BEEKs Badge Button – Select the closest BEEKs Badge Button device from all BEEKs Badge Button devices in range of mobile phone. Please make sure you are within 1 meter of device. The BEEKs Badge Button Icon's green color indicates the relative proximity to BEEKs Badge Button device. The greener color displayed, the closer you are to BEEKs Badge Button device.

Step 1.5 WiFi Template - Choose appropriate BEEKs Badge Button template. If this list is empty, please complete the required prerequisite step of creating BEEKs Badge Button WiFi template on <https://bluzone.io> in your assigned project.

Step 1.6 BEEKs Badge Button Location - Next you will be prompted to select/assign the physical

geo location of the BEEKs Badge Button where it is being physically installed. Location is assigned by GPS and can be changed manually by dragging the pin in order to be more accurate. Drag the pin by holding your finger on pin located in center of screen and dragging to appropriate location.

Step 1.7 BEEKs Badge Button Selfie - Next you will be prompted to take a picture of the BEEKs Badge Button. This is called a “Selfie” within Bluzone application. This is an **optional step** and is recommended so that others can easily identify the location of the BEEKs Badge Button after deployment

Take Device Selfie

Step 1.8 BEEKs Badge Button Profile - Next you will be prompted to enter a name for the BEEKs Badge Button. You may keep the default name but it is recommended to choose a unique name that is meaningful to you. At this time you may also add Tags from the template, or create new ones if needed. *Important: Click Provision after entering the information will submit provisioning request to Bluzone Cloud*
