

Description of Permissive Change

Data: 2022-11-30

Ref: FCC Class II Permissive change for FCC ID: SLE-LE910CXNF (Original approval date: 06/05/2019)

This Class II Permissive Change is for evaluating simultaneous operation of this WWAN module (SLE-LE910CXNF) with another certified BT/WLAN module (Z64-WL18DBMOD) inside the host device described in this filing, and remove antenna extension cable of EUT. Testing is performed with external antennas connected directly to EUT's antenna ports (without additional extension cable).

The modules mentioned above has been approved and is electronically and mechanically identical to the original instructions and requirements.

Except for the changes mentioned above, no other modification is performed.
