

## Description of Permissive Change

The application is prepared for FCC Class II Permissive Change. The detail differences compare with original were been list as below:

1. Adding 2<sup>nd</sup> source for the duplexer (LTE Band 13) that new duplexer is pin-to-pin compatible.
2. Adding 2<sup>nd</sup> source for the PA (LTE Band 17) that new PA is pin-to-pin compatible.
3. Firmware/Software updating that is not impact RF characteristics.

The new duplexer and PA has the same RF function as the original, also no any change in radio parameters. And the part of RF PCB layout is electrically identical as original.
