

Modular Approval Request FCC (per FCC Part 15 Section 15.212)

FCC ID: <u>SLE-WAPN008</u>

| Items to be covered | | Answer from applicant |
|---------------------|--|---------------------------------|
| 1. | The modular transmitter must have its own RF shielding. | The modular transmitter not |
| | | has its own RF shielding. |
| 2. | The modular transmitter must have buffered modulation/data inputs (if such inputs | The EUT has buffered data |
| | are provided) to ensure that the module will comply with Part 15 requirements | inputs, The part number is |
| | under conditions of excessive data rates or over-modulation. | AR9344 |
| 3. | The modular transmitter must have its own power supply regulation. | The EUT has power supply |
| | | regulation, The part number is |
| | | AR9344 |
| 4. | The modular transmitter must comply with the antenna requirements of Section | The modular transmitter |
| | 15.203 and 15.204(c). The antenna must either be permanently attached or employ | complies with the antenna |
| | a "unique" antenna coupler (at all connections between the module and the antenna, | requirements of Section |
| | including the cable). | 15.203 and 15.204(c). |
| 5. | The modular transmitter must be tested in a stand-alone configuration, i.e., the | This is a limited module, |
| | module must not be inside another device during testing. This is intended to | installed on the host to be |
| | demonstrate that the module is capable of complying with Part 15 emission limits | tested. |
| | regardless of the device into which it is eventually installed. | (Host Manufacturer: MOXA, |
| | regardless of the device into which is eventually installed. | Model No: AWK-4131A.) |
| 6. | The modular transmitter must be labeled with its own FCC ID number, and, if the | Please refer to the user manual |
| 0. | FCC ID is not visible when the module is installed inside another device, then the | instructions. |
| | outside of the device into which the module is installed must also display a label | |
| | referring to the enclosed module. This exterior label can use wording such as the | |
| | following: "Contains Transmitter Module FCC ID: XYZMODEL1" or "Contains | |
| | FCC ID: XYZMODEL1." Any similar wording that expresses the same meaning | |
| | may be used. The Grantee may either provide such a label, an example of which | |
| | must be included in the application for equipment authorization, or, must provide | |
| | adequate instructions along with the module which explain this requirement. In the | |
| | latter case, a copy of these instructions must be included in the application for | |
| | equipment authorization. | |
| 7. | The modular transmitter must comply with any specific rule or operating | The modular transmitter |
| ' | requirements applicable to the transmitter and the manufacturer must provide | complies with any specific |
| | adequate instructions along with the module to explain any such requirements. A | rule or operating requirements |
| | copy of these instructions must be included in the application for equipment | applicable to the transmitter |
| | authorization. For example, there are very strict operational and timing | and the manufacturer must |
| | requirements that must be met before a transmitter is authorized for operation under | provide adequate instructions |
| | Section 15.231. For instance, data transmission is prohibited, except for operation | along with the module to |
| | under Section 15.231(e), in which case there are separate field strength level and | explain any such |
| | timing requirements. Compliance with these requirements must be assured. | requirements. |
| 8. | The modular transmitter must comply with any applicable RF exposure | The modular transmitter |
| 0. | requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific | complies with any applicable |
| | Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), | RF exposure requirements. |
| | require that Unlicensed PCS, UNII and millimeter wave devices perform routine | Ta exposure requirements. |
| | environmental evaluation for RF Exposure to demonstrate compliance. In | |
| | addition, spread spectrum transmitters operating under Section 15.247 are | |
| | required to address RF Exposure compliance in accordance with Section | |
| | 15.247(b)(4). Modular transmitters approved under other Sections of Part 15, | |
| | when necessary, may also need to address certain RF Exposure concerns, | |
| | typically by providing specific installation and operating instructions for users, | |
| | installers and other interested parties to ensure compliance. | |
| | mounters and other interested parties to ensure compitance. | |
| | | |

Note: If compliance with one or more of the numbered requirements, listed above, cannot be demonstrated, it may be possible to obtain a "Limited Modular Approval" (LMA).

Name and surname of applicant (or authorized representative): Owen Chang

Date: Aug. 21, 2015 Signature: _____
