Subject: Superseding the User Manual for FCC ID: SLE-WAPN008

To whom it may concern.

Since **MOXA Inc.** would like to modify the test User's Manual, we here would like to request that you supersede the document.

Due to the exhibit User manual we provided to ACB was a draft version which did not remove the "highlight" and the "notes" in the document, we would like to change a revised formal manual as the exhibit on the website.

Please see the following modifications;

1. We removed all the "highlight" and "notes" in the manual.

MOXA Inc. attests that the product was certified under **FCC ID: SLE-WAPN008** has been marked in the U.S. since the certification was granted on **01/18/2017**. We, **MOXA Inc.**, are also aware that the public could view these documents on FCC website.

Please kindly accept and proceed our request.

Thanks for your understanding.
