主旨: FW: HL-Tech Corporation, FCC ID: SLH-WL-3002B, Assessment NO.: AN07T7369, Notice#1

Hi Gina,

Q#1: Please provide the rear side of the EUT photo.

Ans: [Plz have the attached.](#)

Q#2: Theory of operation indicates the RF chip's capability has includes 802.11a which does not agree with the application. Please confirm whether this application has included 802.11a or not and if it's not applied, please confirm how the 802.11a will be disabled.

Ans: [The 802.11a is disabled by software so the device support 802.11bg only.](#)

Q#3: Theory of operation also indicates that the frequency range of 802.11bg is from 2400-2495MHz which is out of the band allowed in USA. Please explain.

Ans: [The operating frequency range will be set to 2412~2462MHz by software before placing into USA that user can't update them.](#)

Q#4: Antenna specification indicates the connector is a I-PEX standard connector which doesn't complied with Part 15.203. Please explain.

Ans: [please see attached antenna spec.](#)

Q#5: Since this is mini-PCI card that it is classified as a PC peripheral, it shall comply with DOC rule or certification. However, there is no FCC DOC logo found in the label. If it is seeking to follow certification rule, then please submit Part 15B test report and file as a composite device, otherwise, please make sure Part 15B is complied and FCC DOC logo onto the label.

Ans: [please see attached.](#)

Best Regards,

Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
