

FCC Part 15 ID label – UGM Limited Module

PN 130-0012-001 Rev A00

This label applies only to the 800 level Bill of Material for the UGM. It shall include the FCC identification number indicating that the UGM Limited Module device complies with Part 15 of the FCC Rules as illustrated below in FIGURE 1. Adding this label verifies that the product has passed FCC requirements.

The table below includes entries for the two “models” of Smart Meter (High & Low) which the UGM module is installed into. Based on the model configuration, they will require different product labels but all the Meter Forms of that model that have passed certification will have the same FCC ID. This label is used in conjunction with the Smart Meter label (PN 130-0011-001) which is installed on the meter form itself. Refer to table below for clarification:

| Model | FCC ID for UGM | FCC ID for Smart Meter | | Comment |
|-----------------|--------------------|------------------------------|---|--|
| SmartMeter High | SM6-UGM-H | Contains FCC ID: SM6-UGM-H | Forms – 1S, 2S, 2Se, 12S Forms – 3S, 4S, 25S not certified | Current High |
| SmartMeter Low | SM6-UGM-L | Contains FCC ID: SM6-UGM-L | Forms – 1S, 2S, 2Se, 12S Forms – 3S, 4S, 25S not certified | Current Low |
| SmartMeter Low | SM6-UGM-C-L | Contains FCC ID: SM6-UGM-C-L | Forms – 1S, 2S, 2Se, 12S Forms – 3S, 4S, 25S not certified | Old Low Manufacturing Discontinued |

The **RED** hi-lighted text indicates what is to be marked on the label for the Limited Module

Label Specifications:

Label stock: 121-0004-001 or equivalent Polyester Stock

Color / Size: White / .25 x 1.00
